Flightwidgets LLC  
3803 Hemlock Ct  
Rockford, IL 61107  
warranty@flightwidgets.com

### WARRANTY DETAILS

What is covered:

- Like new or rebuilt starters sold by Flightwidgets LLC will be warranted against defects for a period of:
- 18 months for rebuilt starters,
- or 30 months for remanufactured (like new) starters,
- or starters that are purchased with LIFETIME warranty will continue coverage for the original owner as long as the starter is returned every 24 months for refurbishment.

What is not covered:

- Labor to Remove & Replace the starter or any labor associated with the failure or troubleshooting of the starter.
- Starters determined to have failed by excessive cranking time (duty cycle) as specified in the owners manual included with each starter.
- Any additional expense(s) including labor, inconvenience, transportation or loss of business due to any starter failure.
- Damage to any other engine or aircraft component(s)
- Additional costs born by purchases from any third party, agent or entity.
- Starters containing any foreign substance or debris including motor oil, cleaning agents or foreign particles not found in the starter's normal composition (physical evidence: presence of substance within starter)
- Damages resulting from a starter being used in any improper application or improper installation of the starter or any ancillary equipment or component associated with the starter.
- Starters serviced in the field by removing or replacing any components.
- Starters damaged by impact, shock, excessive shaking or other physical abuse (physical evidence of dents to starter components, loose or stripped bolts, screws, terminals and bent components not caused by defects in components or workmanship)
- Starters determined to have failed by a counter-rotational force (kickback)
- Starters determined to have failed by application of voltage in excess of that specified in the owners manual
- Starters that show evidence of tampering.
- Installing our starters onto certified engines or certified aircraft.

Duration: Starters repaired under warranty will continue under warranty for 12 months or the duration of the original warranty period whichever is greater.

Flightwidgets LLC is not the OEM and therefore makes no warranty as to suitability of the products for the intended application. Starters sold by Flightwidgets are not approved PMA parts and shall not be installed on any aircraft or engine that is certified by the FAA. Doing so voids this warranty.end
